

MATTHEW CASTLE

PROFESSIONAL SUMMARY

Software engineer with 4.5 years of experience in cybersecurity, distributed systems, and backend development. Strong in first-principles problem solving, clear communication, and sound judgment. Seeking to contribute to meaningful work on a high-performing team.

WORK HISTORY

Software Engineer, 10/2021 to 01/2026

Trend Micro - Austin, TX

- Maintained proper functioning of Trend Micro ZTSA infrastructure
- Maintained ETL pipelines and databases in the ZTSA backend, resolving data integrity and performance issues
- Developed the backend of several new features in ZTSA
- Diagnosed and resolved complex customer issues by analyzing logs and tracing failures across distributed systems
- Debugged distributed systems handling large volumes of network traffic, ensuring high performance and reliability
- Designed and implemented RESTful APIs for internal services and customer-facing product features

Research & Development Intern, 06/2021 to 08/2021

Trend Micro - Austin, TX

- Collaborated on a four-person team to build a web app that dynamically visualizes AWS account assets and their relationships as an interactive graph in the browser.
-

EDUCATION

Bachelor of Arts, Mathematics, 05/2021

University of Oklahoma - Norman, Oklahoma

- Minors in Computer Science and Physics
 - GPA: 3.83
-

CONTACT

Address: Austin, TX 78759
